FOREWORD

The purpose of this directory is to identify secondary wood-using markets in the State of Maine which are available to the primary wood producers. The directory was designed to assist in the marketing of primary forest products and forest product residues.

Inclusion in this directory does not necessarily constitute an endorsement of any of the firms listed. Unquestionably, there are some firms which have inadvertently been overlooked in the process of compiling the directory. Exclusion of any firm is not intentional, nor should be construed to reflect adversely upon the reputation of the establishment.

The information presented in this directory has been placed on automatic data processing cards to facilitate publishing future editions. Any additions, deletions, or corrections should be addressed to the Utilization and Marketing Division, Bureau of Forestry, Ray Building, Augusta, ME 04333 (Tel. 207-289-2791).

ACKNOWLEDGEMENT

The Maine Bureau of Forestry thanks those firms who have cooperated by providing the information contained in this directory. Acknowledgement is also made to personnel of the USDA Forest Service for their assistance: particularly David R. Schumann, NA State & Private Forestry, Portsmouth, NH, for coordinating the work; and the NE Forestry Sciences Laboratory, Princeton, WV, for developing the computer program and processing the data.

INTRODUCTION

Four hundred seventy-one Maine secondary forest product industries were asked to complete a questionnaire characterizing their purchase and use of wood. Sixty-nine percent of the firms responded. Of these 326 firms, 208 or 64 percent are listed in this directory. Fifteen percent of the questionnaires were returned for reasons such as: addressee unknown, unforwardable address, refused, unclaimed, or out-of-business. Twenty-one percent of the returns were determined by the address or the authors to be non-applicable to this directory or incomplete, or the respondent did not wish to be listed.

MAINE'S

Secondary Wood-Using Industry Directory

SUMMARY

LOCATION OF FIRMS (by county)

<u>County</u>	<u>No. of firms</u>	<u>% of firms</u>
Androscoggin.	9	4
Aroostook	12	6

DIRECTORY

This directory contains seven indexes. A master listing of firms contains statistical data and is listed alphabetically by firm name. The other six indexes are topical and list the firm index number, which is keyed to the alphabetical listing. These six indexes are: firms by county, product line, raw material, species, residues acquired, and residues produced as excess.

The master listing includes the following information:

1. Index Number - This number keys the firm to the topical index.
2. Company Name and Address - Includes firm name, location (including county), name of contact individual, and phone number. The physical address of the firm is **listed rather than** an obscure mailing address wherever possible.
3. Number of Employees - Full-time personnel.
4. Major Products Produced - Product lines were limited to 49 categories. Listing of categories was limited to major products produced.
5. Raw Materials Acquired - Raw materials were limited to 17 categories. Listing of categories was limited to principal types acquired.
6. Species Used - Species were limited to 30, including three general categories: mixed hardwoods, mixed softwoods, and imported woods.
7. Volume - Volumes are expressed in board feet unless otherwise specified and correspond to the species used. The abbreviation M denotes 1,000 board feet and MM is 1 million.
8. Residue - Residues, both acquired and excess, were limited to 6 categories.

TABLE OF CONTENTS

	<u>Page</u>
1. Alphabetical Listing of Firms.	7
2. Index of Firms by County	39
3. Index of Firms by Product Line	39
4. Index of Firms by Type of Raw Material Acquired. . .	42
5. Index of Firms by Species Utilized	43
6. Index of Firms by Residues Acquired.	45
7. Index of Firms by Excess Residues.	46
